JIM WELLS COUNTY ELECTIONS IS PROUD TO ANNOUNCE

Civera

ElectionStats by Civic

Scheduled Launch Date:

February 12th, 2025

In line with our mission to offer transparency, as well as cultivate public confidence in the accuracy of election results, The Jim Wells County Elections office is pleased to announce the launch of a searchable database of election results, available at <https://jimwellscountyelections.gov>. This tool, ElectionStats by civic technology company, Civera, includes such features as:

- a query box where it can filter by year, office, and election type.
- Primary source documents available for viewing and download, to verify results information.
- Functionality to compile aggregate data by setting a multi-year search range.

Past election results displayed include both candidates and ballot questions, as well as voter turnout data, and all data can be easily exported into a .csv file so individuals can conduct their own data analysis.

200 N Almond St Suite 104 Alice, Texas 78332
